FORMAT

SMART
SCROLL

Sophisticated design with a minimalist profile

Designed with clean lines and a symmetrical silhouette, this mouse offers a comfortable experience for any user. Its compact format makes it an ideal companion for both fixed workstations and mobile setups, fitting easily into a laptop bag without sacrificing control.

One mouse for every platform

Modern productivity isn't tethered to a single device. This mouse is engineered for universal compatibility, offering full support for Windows, macOS, Linux, and Chrome OS via the USB receiver, while providing native Bluetooth integration for iPadOS and Android. No matter which hardware you prefer, you can count on consistent, professional performance across all your professional tools.

Triple-channel connectivity

Manage your entire digital ecosystem from a single point of control. Equipped with a 2.4 GHz wireless receiver and two independent Bluetooth 5.0 channels, this mouse allows you to pair and toggle between three separate devices instantly. Whether you are moving from a desktop to a laptop or a tablet, the dedicated connection switch ensures your workflow remains uninterrupted and your desk stays free of redundant peripherals.

Power that keeps pace with your ambition

Forget the hassle of constantly replacing batteries. This mouse offers up to 100 hours of use on a single charge, providing reliable power for even the busiest schedules. When it's time to top up, the included USB-C cable gets you back to full strength in just two hours, ensuring your workflow stays smooth and uninterrupted.

Master your workspace in every direction

Move beyond the limitations of vertical scrolling. The smart scroll wheel features lateral movement, allowing you to navigate horizontally through complex spreadsheets, video timelines, and large-scale designs with a simple tilt. Combined with the vertical scrolling movements, this multi-axis control puts comprehensive navigation at your fingertips, significantly speeding up how you interact with expansive digital content.

The logo for 'offy' is displayed in white lowercase letters inside a blue circle, which is set against a larger blue abstract shape in the top-left corner of the page.
