CE STATEMENT OF COMPLIANCE WITH EUROPEAN UNION DIRECTIVES

Offy declares that this product is in compliance with the essential requirements and other relevant provisions from the following Directives: 2014/30/EU; 2011/65/EU; 2014/53/EU, as applicable.

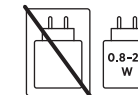

The technical documentation required by the Conformity Evaluation Process is in Offy's possession and can be requested through support@offy.pt.

DISPOSAL OF BATTERIES AND ELECTRICAL OR ELECTRONIC EQUIPMENT WASTE

The existence of this symbol on the product, batteries or respective packaging, signifies that this product and the contained batteries can not be disposed as domestic waste. It is the user's responsibility to deliver this product at a batteries, electrical or electronic recycling pick-up point. The pick-up and separate recycling contributes for the preservation of natural resources and suppresses potential negative consequences for the human health and the environment resultant of inadequate disposal of dangerous substances contained in batteries and electrical or electronic equipment. For additional informations regarding batteries, electrical or electronic recycling pick-up points, please contact your local municipal services.

BATTERY CHARGING POWER

The charging power must range between a minimum of 0.8 Watts, required by the device, and a maximum of 2.1 Watts to achieve maximum charging speed.

SAFETY - EU 2023/988

Power supply: Use only the provided charging cable. Do not use damaged chargers or cables.

Battery safety: Do not expose the product to heat, fire, or direct sunlight. Never attempt to open, puncture, or replace the battery.

Wireless use: This product operates on 2.4 GHz RF and Bluetooth 5.0. Keep away from strong electromagnetic fields that may cause interference.

Environment: Avoid use in humid or dusty environments. Do not allow liquids to spill on the device.

Children: Not a toy. Keep out of reach of children and pets.

USER GUIDE

POWER SWITCHES

Use the power switches, on the back of the keyboard and the bottom of the mouse, to turn them ON or OFF as needed.

BATTERY CHARGING

The peripheral's indicator will blink red when the battery is low. At this point, charge the keyboard and/or mouse using the provided cable. We recommend charging through your device's USB-A port. Do not use fast-charging adapters, as they may damage the batteries. Connect the USB-C plug to the keyboard or mouse, and the USB-A plug to your device.

CONNECTION MODE

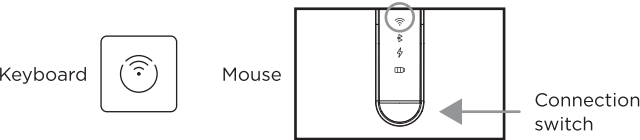

The peripherals support dual mode wireless connections: 2.4 GHz RF, through the USB-A receiver and Bluetooth 5.0. You can easily change between connected devices through the connection switches.

2.4 GHZ RF CONNECTION

Plug the USB receiver onto an available USB-A port on your device. It connects both the keyboard and the mouse.

Your device's operating system should automatically detect the receiver. To connect via 2.4 GHz RF, press the corresponding key on the keyboard. On the mouse, use the connection switch to select the same mode.

The connection indicator (green color) will light up, showing that the connection was successful.

BLUETOOTH

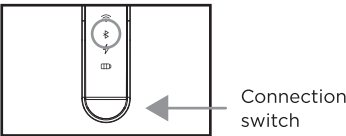

On the keyboard, press the corresponding key in order to select the Bluetooth connection method.

The connection indicator will light up (blue color), showing that the channel is active. Press and hold the key, until the light indicator starts blinking, showing that the pairing mode is active.

Open your device's Bluetooth settings. The keyboard will appear as Offy Syncro KB. Select it to pair with your device. Once connected, the indicator light will stop blinking. Note: The Bluetooth channel supports only one paired device at a time. To connect to a new device, clear the memory by pressing and holding the key until the indicator light starts blinking. The keyboard is now ready to pair with another device.

On the mouse, switch to Bluetooth mode. Then press and hold the connection switch until the indicator light starts blinking, indicating that pairing mode is active.

Open your device's Bluetooth settings. The mouse will appear as Offy Syncro Mouse. Select it to pair. Once connected, the indicator light will stop blinking.

Note: The Bluetooth channel supports only one paired device at a time. To connect to a new device, you must clear the existing pairing. Press and hold the switch until the indicator light starts blinking, then pair the mouse with the new device.

MULTI DEVICE COMPATIBILITY

Press the "Fn" key + the desired option to adjust the keyboard's compatibility with Windows or Mac OS.

FUNCTIONS

FN SHORTCUT KEYS

 ESC F7	Fn lock	 < F7	Previous track
 F1	Decrease brightness	 > F8	Play / Pause
 F2	Increase brightness	 > F9	Next track
 F3	Desktops	 x F10	Mute
 F4	Search	 - F11	Reduce volume
 F5	Speech recognition	 + F12	Increase volume
 F6	Hibernate		

Note: As a multi-device keyboard primarily designed for Windows, some features may not be fully available or may behave slightly differently depending on the Mac OS's version of the paired device.
